850 Gallon Cistern Tank

Part Number: E-SE-TANK850

Description: 850 Gallon Cistern Tank

Site Map: Tommy Store > Backroom Components > R.O. Water Filtration Units > Water Storage Tanks

Price: Go Online for Price

Detailed Description

Cistern tanks are intended for bulk storage of RO water and are designed for below ground level installations. Tanks are manufactured from high-density polyethylene with U.V. inhibitors and feature a trapezoidal, deep rib design. Manufactured from extruded Nitrile rubber, the custom-molded lid gasket snaps into the lid and ensures a watertight seal. Cistern tanks are FDA-approved for potable water and are manufactured for containment of liquids up to 1.7 specific gravity.

Specifications

- 260 lbs. weight
- 850 gallon capacity
- Dimensions: 70"L x 60"W x 60"H
- Material: Polyethylene
