Detailed Description

Maximize your detailing service with a heavy-duty, fast-acting cleaner that quickly cuts through tough road grime to leave wheels, rims, whitewalls, and tires looking new. Wheel & Tire Cleaner is suitable for use on all vehicle services including aluminum, alloy, and chrome wheels (when used as directed). This Concentrated, time saving, non-acidic formula is ideal for pre-car wash use, hand detailing use, and in automatic or self-service spray applicators at low pressure.

Specifications

Product is concentrated for maximum economy and cleaning power. To achieve optimum dilution, start by diluting 1 part concentrate in 20 parts water.

Stoner Wheel and Tire Cleaner is formulated to produce a pH of 10.5 at a 20:1 dilution ratio.

Test for desired pH, cleaning strength, and application conditions, then adjust with caution.
