

NETGEAR 48 Port GbE PoE+ Smart Managed Pro Switch

Part Number: CCS-5089076

Description: NETGEAR 48 Port GbE PoE+ Smart Managed Pro Switch

Site Map: Tommy Store > Guardian Control Systems > Ethernet Network

Price: \$703.82

Detailed Description

The NETGEAR GS752TPv2 Gigabit Smart Managed Pro Switches offer 380W PoE budget across 48 and 4 dedicated SFP ports for Wireless converged networks, IP surveillance and Video-over-IP deployments. Advanced features such as IPv4/IPv6 Layer 3 static routing, DiffServ QoS, LACP bonding and Spanning Tree will satisfy even the most advanced small and medium business networks.

Specifications

- Depth : 12.2 in
- Height : 1.7 in
- Weight : 10.87 lbs
- Width : 17.3 in

Features

- Setup and configure with easy-to-use web-browser based interface
- POWER-OVER-ETHERNET– 48 Gigabit PoE+ ports (802.3af and 802.3at) providing up to 30w per port with 380w total PoE power budget
- FEATURE-RICH AND SECURE– Advanced Smart features include Layer 3 static routing with 32 routes (IPv4 and IPv6) for interVLAN routing, Private VLANs and MVR
- COMPREHENSIVE LAYER2 NETWORKING– VLAN, QoS, IGMP Snooping, Rate limiting, LACP Link aggregation, STP, SNMP, and ACL
- ProSAFE LIFETIME PROTECTION
