

LC1D65G7 Non-Reversing Contactor 120VAC 65A

Part Number: CCS-LC1D65G7

Description:

Site Map: Tommy Store > Guardian Control Systems > Contactors

Price: \$212.00

Detailed Description

This non-reversing contactor can be used for multiple applications in the wash tunnel including the Conveyor Backup Starter, Guardian 80 Function Controller, and other controls applications in the backroom of the wash site. The contactor has a current rating of 65 A and has built-in auxiliary contacts. It also has a voltage rating of 120 VAC and horsepower rating of 50 HP. The contactor has 3 poles and can be DIN rail mounted and panel mounted. These contactors are designed to control and provide overload protection to motors and offer high reliability with long mechanical and electrical life.

Specifications

- Contact Current Rating: 65 A
- Voltage Rating: 120 VAC
- Horsepower Rating: 50 HP
- # of Poles: 3 Poles
- Power Rating: 37 kW
- Frequency: 50/60 Hz
- Operating Temp. Range: 23F-131F
- Dimensions: 4-5/8" X 2-7/8" X 5"

Features

- Non-Reversing
- Screw Terminal Type
- DIN Rail Mounted or Panel Mounted
- 3 NO Contact Configuration
- IP20 Finger-Safe Terminals
- Built-In Auxiliary Contacts
