

# Turck Inductive Proximity Sensor

**Part Number:** CCS-T4647600

**Description:** Turck General Purpose Inductive Proximity Sensor Used for Loose Chain/Pulse Sensor

**Site Map:** Tommy Store > Guardian Control Systems > Sensors

**Price:** \$93.03

## Detailed Description

The Turck NI15-G30-AP6X (PNP) general purpose inductive proximity sensor has many uses. The main one for car washes is loose chain/pulse sensor. While in the wash, this sensor detects metal objects (flags) to send a signal to the controller. This sensor offers multiple protections including short-circuit and overload protection as well as reverse polarity and wire break protection. Includes 6.5' cable.

## Specifications

- Sensor Number: NI15-G30-AP6X (PNP)
- Brand/Series: NI15 Series
- Current, Consumption: 200 mA (Max.)
- Current, Switching: 200 mA
- Length: 2-1/3"
- Diameter: 30MM
- Frequency, Switching: 500 Hz
- Function: Proximity
- Material, Housing: Brass
- Mounting Type: M30 X 1.5 Threaded
- Sensing Range: 15 mm
- Voltage: 10-30 VDC
- Temperature Range: -13F-158F
- Termination: 3-Wire Cable
- Type: Inductive
- Environment Rating: NEMA 1, 3, 4, 6, 13; IP67
- Includes 6.5' Cable

## Features

Used with 8 Flag Proximity Target Collar ([P-C2158-2-1516](#))

## Installation

[Pulse Sensor Information](#)
