

ModiconM251 Logic Controller 2x Ethernet

Part Number: CCS-TM251MESE

Description: ModiconM251 Logic Controller 2x Ethernet

Site Map: Home

Price: \$519.00

Detailed Description

SCHNEIDER ELECTRIC TM251MESE PLC, Modicon™ M251 Series, 24 Vdc, Ethernet

The Modicon M251 with CANopen or Modbus TCP let you easily connect to SCADA, MES, ERP by standard Ethernet cables and even via Wi-Fi. Boost your machine's performance with data transfer via SD Card, embedded web server and more. Get unlimited access to your machine via Ethernet - everywhere and any time and simplify maintenance with any mobile device through visualization pages designed directly inside SoMachine and stored in the PLC's web server.
