

Centrifugal Blower Producer

Part Number: E-BP

Description: Centrifugal Blower Producer - Select Color, Rotation, Gate, and Flange Options

Site Map: Tommy Store > In the Tunnel > Drying System

Price: \$6,240.00

Detailed Description

Complete car wash drying begins and ends with the blower producer chosen for your wash. Tommy Car Wash Systems' powerful centrifugal blowers are mounted to overhead arches to provide versatile and effective vehicle drying in automatic car wash tunnels.

These blowers are designed for easy installation and mounting with highly customizable placement for system optimization. The power and energy efficiency of these car wash blowers allows for faster, more thorough drying in shorter spaces as cars exit the car wash tunnel. Designed for aesthetic appeal as well as drying efficiency, producer housings are available in black plastic finishes.

The complete Tommy Car Wash Blower System provides leading car wash drying potential and is easily tailored to meet the space and drying requirements of your car wash facility.
