

# Piston Type Air Regulator

**Part Number:** P-AIR-2128

**Description:** Series ARX20 Piston Type Air Regulator&nbsp;on POD

**Site Map:** Tommy Store > Parts > Pump Panel Parts

**Price:** \$22.95

## Detailed Description

This air regulator is used in the POD's. It is ideal for pressure adjustment of air blowing applications. The piston operated design ensures long operating life. It is part of the ARX series which has an easy-to-operate adjustment handle. It is compatible with a primary supply pressure of 2.0mpa.&nbsp;

## Specifications

- Pressure Range: 0.05-0.85 MPa
- Thread Type: NPT
- Port Size: 1/4"
- Proof Pressure: 3.0 MPa
- Max Operating Pressure: 2.0 MPa
- Fluid: Air
- Ambient and Fluid Temp: 23F-140F

## Features

- Compact Type
- Piston Type
- 3 Out Ports
- Handle Shape for Easy Operation
- Ideal for Discharge Pressure Adjustment on Small Compressor
- Ideal for Pressure Adjustment of Air Blowing Applications

## Installation
