Description: Tommy Car Wash Systems Hugger / Z-Wrap Brush - Hardware Not Included

Site Map: Tommy Store > In the Tunnel > Cloth Modules > Cloth & Foam > Wrap Brush Cloth

Price: \$1,680.00

Detailed Description

The Tommy Car Wash Systems' Hugger Brush Assembly fits both Z-Wrap and Reverse Huggers, and excels at providing safe, gentle cleaning suitable for a wide variety of commercial car wash customer vehicles. Featuring nearly twice the cloth of the original hugger brush design, as well as a tapered cut to enhance backend coverage, Tommy Hugger brushes offer unrivaled performance in even the highest-volume scenarios. Available in both soft cloth and closed cell foam options. **Hardware is not included with these brushes and can be ordered under part number P-INS-298.**

SOFT CLOTH: The perfect solution for wrap-style systems, soft cloth has been used extensively throughout the car wash industry. This heavy duty fabric system uses both straight and wavy sections to maximize efficiency, and hugs customer vehicles as it cleans. Soft cloth helps to eliminate cleaning misses while the durable construction provides longevity and dependability.

CLOSED CELL FOAM: Italian-made Carlite foam is rapidly becoming standard in the car wash industry thanks to its close cleaning power and the notable gentleness with which it caresses customer vehicle paint without transfers. Due to its unique closed-cell structure, Carlite has been praised for maintaining the brightness of vehicle exteriors even after frequent washes over long periods of time.
