

# Tommy Car Wash Rocker & Brush Motor

**Part Number:** P-M1002

**Description:** Tommy Car Wash Motor - Rocker Brushes, Top Brush, Contours, & Oscillator

**Site Map:** Tommy Store > Parts > Z-Wrap Module Parts

**Price:** \$303.57

## Detailed Description

This TB0080 light duty motor is used to operate the rocker brushes, top brush, contours, and oscillator in the wash cycle. It has a high pressure shaft seal so external drains are never required, roller vane technology for automatic wear compensation, and full flow internal cooling and flushing. This is a four bolt mounting motor with a 1" keyed shaft. It has standard rotation direction on it.

## Specifications

- Displacement: 5.0 in<sup>3</sup>/rev
- Port Size: 1/2"-14 Female NPT
- Max Differential Pressure: 1,800 PSI (cont) / 2,400 PSI (interm)
- Max Supply Pressure: 2,750 PSI
- Max Speed: 409 RPM
- Max Oil Flow: 9 GPM
- Min Torque: 816 lb-in (cont) / 1,226 lb-in (interm)
- Max Torque: 1,193 lb-in (cont) / 1,624 lb-in (interm)
- Max Performance: 10.5 HP
- Weight: 13.0 lbs.

## Features

- 4 Bolt Square Flange Mounting
- 1" Keyed Shaft
- Standard Rotation Direction
- Superior Side Load Capacity
- Smooth Extra Low Speed Operation

## Installation
