

# Hydraulic 26" Rocker Panel Brush - Cloth and Core

**Part Number:** P-M2187

**Description:**

**Site Map:** Tommy Store > In the Tunnel > Cloth Modules > Cloth & Foam

**Price:** \$800.00

## Detailed Description

These hydraulic rocker brushes are used in the All-In-One Extreme Clean Combo units in the Rocker Brush application. The rocker brushes have an extended height of 26" and add extra cleaning power to Tommy Car Wash Systems' Multi-Wash / Wrap Mitter Combo by scrubbing the lower portion of customer vehicles, including doors, wheels and running boards. They are mounted onto the legs of the Wrap Mitter Combo units and attach to the driver and passenger side rocker brush arm units in both electric and hydraulic sites. These replacement brushes are made from a safe, wear-resistant soft cloth material and can fit standard 21" rocker brush systems as well. The design of the brush features 48 slots full bottom and has 24 rows on top with buffers every other row. These are meant to spin at the recommended spin rate of 100-120 RPM and set at a recommended angle of 10 degrees with the top facing away from the vehicle for optimal cleaning. The rocker brushes are offered in multiple color options: Red, Black, and Blue.

## Specifications

- Height: 26" Extended Height
- Top Diameter: 44"
- Bottom Diameter: 48"
- Color: Red, Black, Blue
- Recommended Spin Rate: 100-120 RPM
- Material: Soft Cloth

## Features

- Hydraulic Version
- Includes Cloth and Core
- Adjustable Angle
- Cleans Lower Areas
- Stainless Steel
- Gas Shock Pressure
- Simple/Clean Design

## Installation
