

# 1/2" Stauff Clamp Unit

**Part Number:** P-WAT-2777

**Description:**

**Site Map:**

**Price:** \$4.50

## Detailed Description

This clamp is used for the Front/Rear Bumper Blaster in the wash tunnel. The clamp is made to fit around a 1/2" diameter tube. It is made of polypropylene for resistance to moisture and ensure high flexural strength. These clamps come in two halves that are combined to make one complete Stauff clamp unit.

## Specifications
